SPA PAMPER & WELLNESS RETREAT MENU

"Chi" means high, vibrant, positive energy, offered at our intimate boutique day and overnight Wellness Retreat & Spa, with the most beautiful views of the Stellenbosch mountains and vineyards. We specialize in stress and lifestyle management, offering wellness therapies and techniques, in combination with the usual spa pamper, deeply relaxing the mind and body. A tense mind = tense body = inflammation. Boost the immune system, release inflammation, toxins, aches & pains, which help you sleep and feel better, with a stronger connection to your higher self, whatever your belief system may be.

We offer you optional (highly recommended) breathing and visualisations techniques with headsets to calm the mind from an overactive/overwhelmed beta brain wave/ fight/flight state, into a calming, alpha/theta frequency and thus activating the "rest and restore and digest" part of your central nervous system for profound mental & physical relaxation, finding your balance physically, mentally, emotionally, energetically and spiritually. Add ozone sauna therapy to boost oxygen for optimum rejuvenation.

We use natural, non-toxic, vegan friendly products in our spa.

MASSAGES

We are very well known for the best massages in the area since 2006, combining various techniques. Hot stones, cupping and sound bowls, available upon request. You pay for time. Please inform the therapist which areas of the body to focus on during this time.
